

DESCRIPTION

The diameter of this model is 70cm, and the length of the inner straight section is 1000mm. Using 380V voltage, it can process 50 kg of fresh leaves each hour. Pneumatic shock absorber design, the machine automatically falls back, and the falling speed is stable, the inner barrel uses a new type of environmentally friendly fireproof insulation material, thickness up to 20mm, greatly reduces heat loss and saves energy by 30%, an exhaust fan is added to the rear, which can be turned on and off manually, which can quickly blow away the hot and humid air inside the machine to prevent the tea from being stuffy and affecting the taste.

ADVANTAGE

①

Control Pannel

⑦

Temperature Sensor

②	Thermometer	⑧	Electric Heating Tube
③	Outer Barrel	⑨	Balance Bolt
④	Inner Barrel	⑩	Handle
⑤	Support Wheel	□	Combustion Zone
⑥	Bottom Wheel	□	Support Frame

ADVANTAGE

1. Using calcium silicate board, increasing the heat preservation effect and meeting the food hygiene requirements;
2. There is a handle on the drum, which can be manually roasting in case of a sudden power failure, so that the tea is not wasted.
3. Intelligent temperature control system, easy to operate and precise control;
4. Optimized deceleration system, the machine speed is stable, while ensuring that the torque is large enough and running smoothly.
5. Adopt dual temperature control design, ensure the precise control of temperature and ensure the quality of tea.
6. More controllable water vapor emission system for more energy saving.

APPLICATION

[Electric Heating Green Tea Panning Machine](#) is suitable for processing green / oolong / herbal tea, the following is the working time required for the above tea production.

Type Of Tea	Working Time
Green Tea	4-8 Minutes
Oolong Tea	4-8 Minutes
Herbal Tea	4-8 Minutes

The above data is for reference only, and the specific processing time shall be determined according to the actual situation.

SPECIFICATION

1. 電力 10.5kw 2. 10.5kw 3. 10.5kw

Tea Fixation Machine DL-6CST-D70

Voltage : 380V 50HZ
Heating Power : 24 KW
Drum Diameter : 700 mm
Drum Length : 1000 mm
For Green/Oolong/Yellow Tea

Electric Heating
Capacity 50 kg/h
2.5mm Steel Board

L:156cm W:98cm H:163cm

Electric Heating Green Tea Panning Machine specification list:

Model		DL-6CST-D70
Dimensions		980×1565×1630 mm
Voltage		380/50 V/Hz
Drum inner diameter		700 mm
Drum inner length		1000 mm
Heating power		24 KW
Drive motor	Power	0.75 KW
	Speed	1390 rpm
	Voltage	220 V

Exhaust fan	Power	85 W
	Speed	2200 rpm
	Voltage	220 V
Drum speed		5-37 min
Heating type		Electric heating
Efficiency		50 kg/h

Specification of all of [Electric Heating Green Tea Panning Machine](#).

Model	6CST-D50	6CST-D70
Drum Diameter	50 cm	70 cm
Drum Length	60 cm	100 cm
Capacity	25 kg/h	50 kg/h

If you have special need, it can be customized according to the needs of customers.

DETAILS

Dense electric heating pipe surrounds the whole fixation drum to ensure the uniform heat of cylinder board, tea fixing more evenly.

Integrated microcomputer control system, the fixation time can be intelligently controlled.

When tea fixation, the speed of the machine can be adjusted, according to the tea of different producing areas, different speed can be adjusted.

Top cooling switch design, after tea roasting processing, open the cooling valve, can accelerate heat dissipation.

The inner barrel uses a new type of environmentally friendly fireproof insulation material, thickness up to 20mm, greatly reduces heat loss and saves energy by 30%.
