

DESCRIPTION

The [electric heating continuous fixation machine](#) is mainly used for batch production of green tea, oolong tea, herbal tea, lvan tea, etc.

It has the advantages of controllable temperature, high production efficiency, and low labor costs.

This kind of fixation machine uses gas heating, using three stages of fire platters, the working temperature of each section can be adjusted. Because the tea fixation follows the order from high temperature to low temperature. Therefore, the tea made by this machine is more even, the green color is better, and the aroma is more sufficient.

The inner wall of the machine is made of 3.5mm thick steel plate, with a hot gas circulation device inside. The temperature changing inside the machine is small, small heat loss, and the energy-saving and more environmentally friendly.

Equipped with a water vapor discharge system to discharge hot and humid exhaust gas from the machine to make the tea color look good and avoid quality degradation.

ADVANTAGE

1. Excellent heat insulation, heat preservation and energy saving.
2. The use of calcium silicate board increases the insulation effect.
3. Adopt a controllable water vapor discharge system to save energy.
4. Optimized deceleration system, the machine speed is stable, while ensuring that the torque is large enough and running smoothly.
5. Dense electric heating pipe surrounds the whole fixation drum to ensure the uniform heat of cylinder board, tea fixing more evenly.
6. Using 3.5mm ultra-thick steel plate, the temperature change is small and good heat preservation, the tea leaf will not be damaged, (other factory only use 2mm steel plate)

APPLICATION

[Electric Heating Continuous Tea Fixing Machine](#) is suitable for processing black / green / oolong / white / dark / herbal tea, the following is the working time required for the above tea production.

Type Of Tea	Working Time
Green Tea	4-6 Minutes
Oolong Tea	4-6 Minutes
Herbal Tea	4-6 Minutes

The above data is for reference only, and the specific processing time shall be determined according to the actual situation.

SPECIFICATION

力. 10582003767

Continuous Tea Fixing Machine DL-6CSTL-D60

Voltage : 380V 50HZ
Heating Power : 62 kw
Barrel Diameter : 60 cm
Barrel Length : 300 cm
For Green/Oolong Tea

Electric Heating
Capacity 100 kg / h
5 mm Steel Board

L:350cm W:90cm H:151cm

[Electric Heating Continuous Tea Fixing Machine](#) specification list:

Model		DL-6CST-L60D
Dimension		900×3500×1516 mm
Voltage		380/50 V/Hz
Input power		62 KW
Inner drum diameter		600 mm
Inner drum length		3000 mm
Drive motor	Power	0.75 W
	Speed	1400 rpm
	Voltage	380 V

Exhaust motor	Power	370 W
	Speed	1400 rpm
	Voltage	220 V
Drum speed		5-37 rpm
Heating type		Electric heating wire
Efficiency		100 kg/h

Specification of all of [Electric Heating Continuous Tea Fixing Machine](#).

Model	6CSTL-D60	6CSTL-D80
Drum Diameter	60 cm	80 cm
Drum Length	300 cm	400 cm
Capacity	100 kg/h	200 kg/h

If you have special need, it can be customized according to the needs of customers.
