

DESCRIPTION

The circular vibrating screening machine is the latest and most advanced screening equipment in the world. It integrates plane screening, swing screening, rolling screening and vibration screening. Suitable for liquid and non-liquid filtration in all walks of life.

This machine makes the screen move three-dimensionally through the up and down excitation force of the vibrating motor, forcing the material to move forward in a spiral jumping shape, and finally discharge from the discharge port.

The material with a minimum diameter of 0.025mm can be screened out, and 1-5 layers of screens can be optionally installed to sort or filter materials of 2-6 grades.

ADVANTAGE

1. Wide screening range, the minimum screen size is 0.028mm;
2. Fully enclosed structure, material does not fly, and liquid does not leak;
3. The grid structure has no dead angle, and the discharge port can be adjusted 360 degrees;
4. With vibrating ball, no material blocking, high screening efficiency;
4. The screen mesh is easy to replace and easy to operate.

SPECIFICATION

Circular vibrating screen separator specification list:

| | |
|------------------------|---------------------|
| Model | DL-6CZDS-60 |
| Volatage | 220V 50/60Hz |
| Power | 0.55kw |
| Diameter | 600mm |
| Sieve Diameter | 530mm |
| Sieve Area | 0.22 m ² |
| Materials Max Diameter | □10mm |
| Mesh Size | 2-325# |
| Layers | 1-5 layers |
| Vibration frequency | 1500 rpm |

Specification of all of all circular motion vibrating screener

| Model | Diameter | Sieve Area | Mesh Size | Layers |
|--------------|----------|---------------------|-----------|--------|
| DL-6CZDS-45 | 45cm | 0.09 m ² | 2-325 # | 1-5 |
| DL-6CZDS-60 | 60cm | 0.22 m ² | 2-325 # | 1-5 |
| DL-6CZDS-80 | 80cm | 0.4 m ² | 2-325 # | 1-5 |
| DL-6CZDS-100 | 100cm | 0.63 m ² | 2-325 # | 1-5 |
| DL-6CZDS-120 | 120cm | 0.95 m ² | 2-325 # | 1-5 |
| DL-6CZDS-150 | 150cm | 1.5 m ² | 2-325 # | 1-5 |
| DL-6CZDS-180 | 180cm | 2.3 m ² | 2-325 # | 1-5 |
| DL-6CZDS-200 | 200cm | 2.86 m ² | 2-325 # | 1-5 |

If you have special need, it can be customized according to the needs of customers.
